Repairs planned on U.S. 166 bridge

Repairs to hand rails on the U.S. 166 bridge over Grouse Creek nine miles east of Arkansas City are scheduled to begin Feb. 11.

Traffic will be reduced to one lane in each direction during the project, which is expected to finish by March 8. The width of each lane will be 11 feet wide.

The primary contractor for the \$99,675 project is Reese Construction of Salina.

The Kansas Department of Transportation urges all motorists to be alert, obey the warning signs and "Give 'Em a Brake!" when approaching and driving through a highway work zone. Persons with questions about this road work or other KDOT projects may call South Central Kansas Public Affairs Manager Deb Gruver at 620-663-3361.
