Asphalt Overlay on US-160 Highway in Harper County

Starting around Monday, April 21, the Kansas Department of Transportation (KDOT) will begin an asphalt overlay project on US-160 Highway in Harper County, from the Harper/Barber County line continuing east 17.6 miles to the south junction of K-2/US-160 Highways.

Traffic through this work zone will be controlled by flagmen and pilot car, so drivers can expect delays of up to 15 minutes. There will be a 12 foot width restriction in the work zone, so vehicles with widths wider than 12 feet will need to use an alternate route. The work area will move daily and work will be underway during daylight hours only. This project is scheduled to be completed by June, depending on delays caused by adverse weather conditions.

Venture Corporation from Great Bend is the prime contractor for this \$2,805,907.77 project, which is funded by T-WORKS, the transportation program passed by the Kansas Legislature in May 2010. For more information about T-WORKS projects and funding visit the website, www.ksdot.org/tworks. Highway construction

project locations and road condition information can be viewed at the <http://511.ksdot.org> website, or can also be accessed by telephone by dialing 511.

KDOT urges all motorists to be alert, obey the warning signs, and “Give ‘Em a Brake!” when approaching and driving through a highway work zone. Persons with questions about this road work or other KDOT projects can call South Central Kansas Public Affairs Manager, Martin Miller, at 620-663-3361 or 1-877-550-5368 (Toll free).
