Asphalt Overlay on US-50 Highway in Harvey and Reno Counties

Starting around Monday, June 9, the Kansas Department of Transportation (KDOT) will begin an asphalt overlay project on US-50 Highway in western Harvey County and eastern Reno County, from the US-50/K-15 interchange in Newton continuing west 28 miles to the intersection of US-50 & Obee Road east of Hutchinson. The entire K-89 Highway route, from US-50 continuing south 1.5 miles to the City of Halstead in Harvey County, will also be included in this project.

Traffic through this work zone will be controlled by flagmen and pilot car, so drivers can expect delays of up to 15 minutes. There will be an 11 foot width restriction in the work zone, so vehicles with widths wider than 11 feet will need to use an alternate route. The work area will move daily and work will be underway during daylight hours only. This project is scheduled to be completed by September, depending on delays caused by adverse weather conditions.

APAC – Kansas Inc., Shears Division from Hutchinson is the prime contractor for this \$6,311,620.30 project, which is funded by T-WORKS, the transportation program passed by the Kansas Legislature in May 2010. For more information about T-WORKS projects and funding visit the website, www.ksdot.org/tworks. Highway construction

project locations and road condition information can be viewed at the <http://511.ksdot.org> website, or can also be accessed by telephone by dialing 511.

KDOT urges all motorists to be alert, obey the warning signs, and “Give ‘Em a Brake!” when approaching and driving through a highway work zone. Persons with questions about this road work or other KDOT projects can call South Central Kansas Public Affairs Manager, Martin Miller, at 620-663-3361 or 1-877-550-5368 (Toll free).
