Survey to begin on K-11 Highway in Reno County

Starting around Monday, January 5, and continuing for approximately eight (8) weeks, the Kansas Department of Transportation (KDOT) will have a field survey team surveying a section of K-11 highway in Reno County. The survey area will include the section of K-11 highway 1500 feet north and south of the K-11 bridge over Goose Creek, located 6.3 miles north of the Kingman/Reno County Line. The purpose of the survey is to gather information necessary to create detailed designs for future highway improvements.

Michael Lindquist, P.L.S., with the consultant firm of Wilson and Company, Inc., will be in charge of this survey for KDOT. A member of the survey crew will contact landowners and/or tenants for permission to enter private property. Survey activities will include the use of survey equipment on the ground to determine locations on existing features within the survey corridor.

Persons with questions about the survey can contact Martin Miller, KDOT South Central Public Affairs Manager, at (620) 663-3361 or toll free at 1-877-550-5368.
