Work on Two Northbound I-235 Bridges Begins Monday Evening

A Kansas Department of Transportation highway preservation project on two northbound I-235 bridges, over Gold and West streets, will begin after 7 pm on Monday, July 14. The project includes minor bridge deck patching, replacement of the expansion joints, polymer overlays on the driving surfaces and new striping.

To reduce negative effects on I-235 traffic flow, work will be performed on Sunday through Thursday nights from 7 pm until 6 am. When an active work zone is on the bridge over Gold Street, the ramp from MacArthur to northbound I-235 will be closed.

PCI Roads of St. Michael, Minnesota is the lead contractor on the \$179,447.95 project. Completion is expected in August.

The project is part of the highway preservation component of T-WORKS, an \$8 billion, 10-year transportation program approved by the 2010 Kansas Legislature. More information on the program is available at <http://kdotapp.ksdot.org/TWorks/>. Information on this and other Wichita highway projects is available at www.WichitaKDOT.org.
