K-53 resurfacing near Mulvane to begin around April 20

Resurfacing will start soon on K-53 near Mulvane.

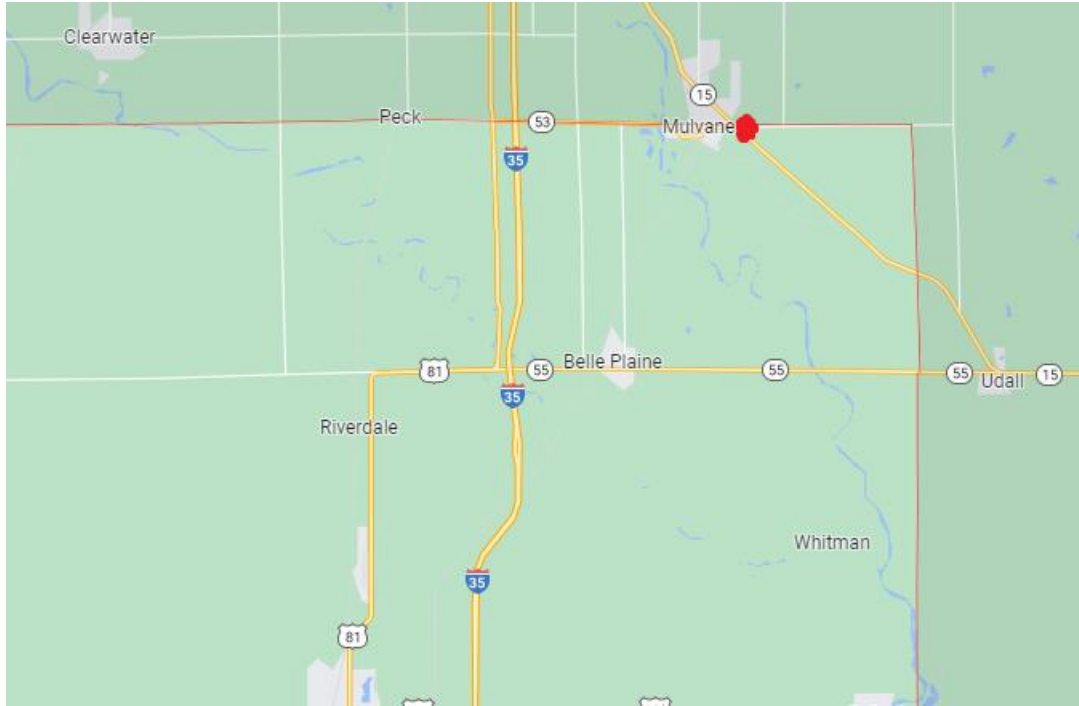

The Kansas Department of Transportation project involves a mill and hot-mix-asphalt overlay on K-53 from the east city limits of Mulvane to the K-53/K-15 junction in Sumner County. The length of the project is almost a third of a mile.

The work is expected to begin around April 20 and be completed around April 23.

During the work, traffic will be restricted to one lane and controlled by a pilot car and flaggers. Motorists should be prepared to stop and face delays of up to 15 minutes.

Pearson Construction, of Wichita, is the primary contractor for the \$109,328 project.

The map below shows the approximate project location, marked in red.
