Project in Cowley County to resurface parts of K-15, U.S. 166, U.S. 77

Sections of K-15, U.S. 166 and U.S. 77 in Cowley County will be resurfaced starting around June 23.

The Kansas Department of Transportation project involves a milling and hot-mix-asphalt overlay on the following locations in Cowley County:

--K-15 from the Oklahoma/Kansas state line to the U.S. 166 junction.

--U.S. 166 from the U.S. 77 junction to the Chautauqua/Cowley county line.

The length of those two sections is about 36 miles.

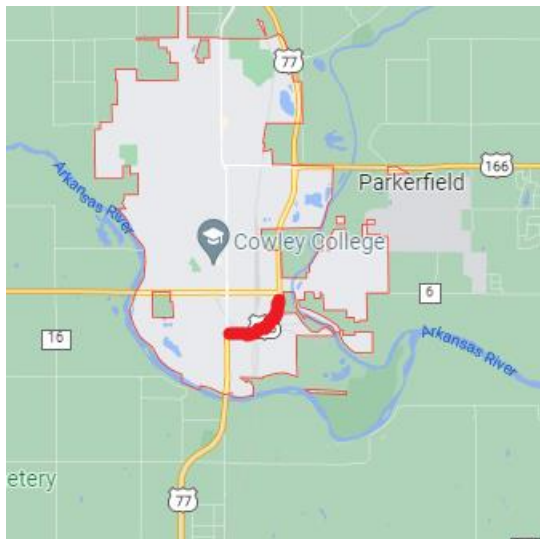

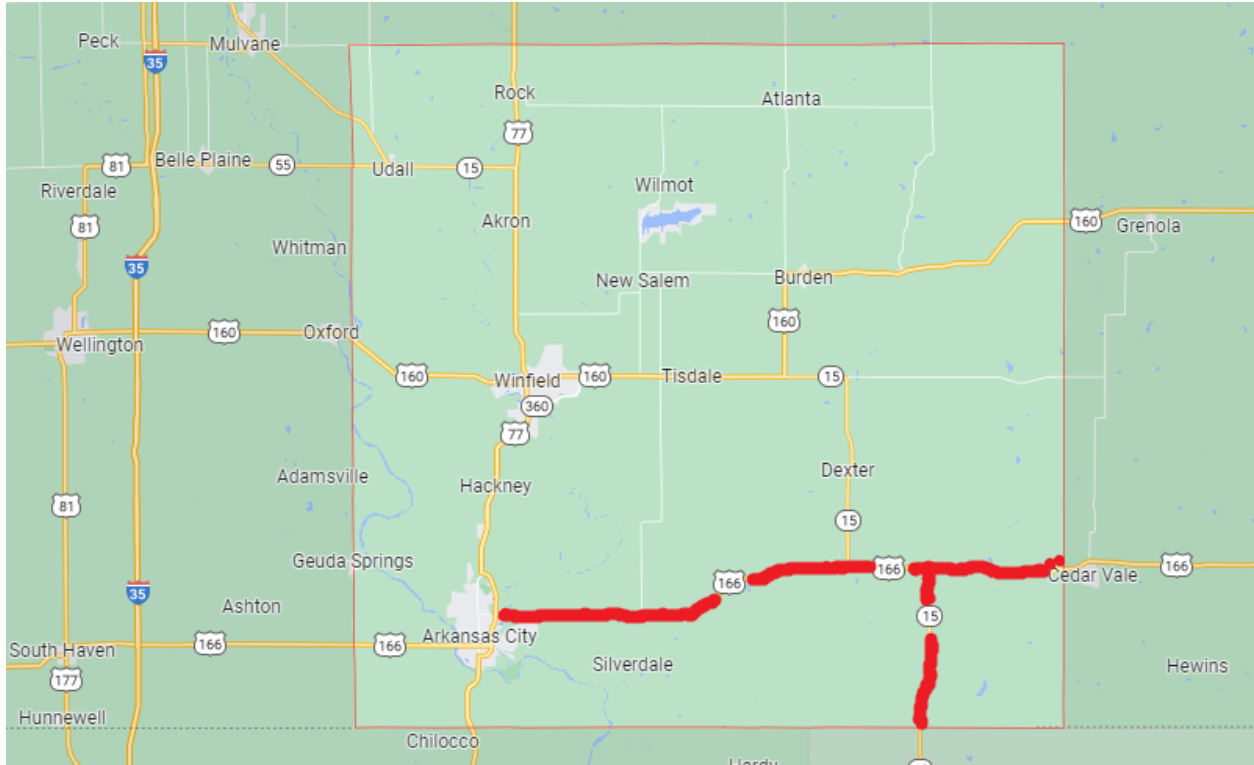

--U.S. 77 at Arkansas City, from Summit Street to Madison Avenue. The length is almost a mile.

During the project, traffic will be controlled by flaggers and a pilot car. Motorists should expect to slow down and stop and face delays of up to 15 minutes.

The work is expected to be completed around Sept. 19.

Cornejo & Sons is the primary contractor for the \$6,934,798 project on K-15 and U.S. 166 and for the \$248,775 project on U.S. 77.

The maps below show the approximate project locations, marked in red.
