Work on US-50 bridge in Edwards County set to begin

Starting around Monday, April 27, the Kansas Department of Transportation will begin a bridge repair project on the US-50 Highway bridge over Big Coon Creek, located approximately 1/2 mile east of City of Kinsley. This bridge repair project will include surface patching followed by a polymer concrete surface overlay, and is scheduled to be completed by June, depending on delays due to adverse weather conditions.

Construction will take place during daylight hours only, so during daytime this US-50 bridge will be limited to one lane of traffic controlled by flagmen. Highway construction project locations and road condition information can be viewed at the <http://511.ksdot.org> website, or can also be accessed by telephone by dialing 511.

RAM Construction Services of Michigan Inc. from Livonia, Michigan is the prime contractor for this \$47,731.25 project, which is funded by T-WORKS, the transportation program passed by the Kansas Legislature in May 2010. For more information about T-WORKS projects and funding visit the website, www.ksdot.org/tworks .

KDOT urges all motorists to be alert, obey the warning signs, and “Give ‘Em a Brake!” when approaching and driving through a highway work zone. Persons with

questions about the road work or other KDOT projects can call South Central Kansas Public Affairs Manager, Martin Miller, at 620-663-3361 or 1-877-550-5368 (Toll free).
