Pavement marking project starts next week on sections of U.S. 169 and U.S. 166

The week of April 23, weather permitting, the Kansas Department of Transportation (KDOT) plans to begin a pavement marking project on the four-lane section of U.S. 169 between the north and south junctions of U.S. 160. The work consists of removing and replacing the deteriorated pavement markings on this section. North- and southbound traffic will be restricted to one lane at the work zone.

After completing the U.S. 169 project, the contractor will move to U.S. 166 to remove and replace the pavement markings on 9½ miles between Sedan and Niotaze. Automatic flaggers will direct traffic through the one-lane work zone on this section, with brief delays expected during daylight hours.

KDOT awarded the construction contracts totaling \$132,000 to Action Safety Supply Company Oklahoma City, Okla. Both projects should be finished within one month, weather permitting.

Persons with questions may contact Darrin Petrowsky at the Kansas Department of Transportation (KDOT) office in Independence, (620) 577-7312, or Priscilla Petersen at the Chanute KDOT office, (620) 902-6433.
