I-35 culvert repair project starts next week

The Kansas Department of Transportation (KDOT) plans on Monday, Oct. 19, to begin a culvert repair project on I-35 in Osage County. The culvert is located north of the south interchange with K-31.

Project activity includes replacing both wings on the north end of the culvert. I-35 southbound traffic will be reduced to one lane until the project is completed in approximately one month.

KDOT awarded the \$198,264 construction contract to Pfefferkorn and Drury Construction, Olathe. Drivers are reminded to reduce speed in the work zone. Persons with questions may contact Troy Howard, (785) 433-6116, or Priscilla Petersen, (620) 902-6433.
