U.S. 75 chip seal projects begin in early September

Tuesday, Sept. 4, weather permitting, the Kansas Department of Transportation (KDOT) plans to place a chip seal on a section of U.S. 75 in Wilson County. The two-mile project starts at the north U.S. 400/U.S. 75 junction and continues east to the Fall River Bridge at Neodesha. After completing work on this section, the contractor will move north to place a chip seal on U.S. 75B at Altoona.

Flagger and a pilot car will direct one-lane traffic through the work zone during daylight hours; expect delays of 15 minutes or less. The road work should be completed in one week, weather permitting.

KDOT awarded the construction contracts totaling \$108,000 to Bettis Asphalt & Construction Inc. of Topeka. Drivers are reminded to watch for the signs and flaggers, and to "Give 'Em a Brake!" at the work zone. Persons with questions may contact KDOT Independence Area Engineer Darrin Petrowsky at (620) 577-7312 or Public Affairs Manager Priscilla Petersen at (620) 902-6433.
