U.S. 400 crack repair project starts this month

The Kansas Department of Transportation (KDOT) expects to start a crack repair project on U.S. 400 in Wilson County on Monday, June 12. The 12½ mile project area runs from K-47 at Fredonia southeast to the Montgomery County line.

Flaggers and a pilot car operation will direct one-lane traffic through the work zone on the two-lane section. Expect delays of 15 minutes or less. A lane width restriction of 11 feet will be in effect. There will be alternating lane closures on the four-lane section. The road work should be completed by the end of July, weather permitting.

KDOT awarded the construction contract of \$344,000 to Pavement Pros LLC, Wichita. Drivers are reminded to obey the signs and flaggers and to slow down in the work zone. Check KDOT's updated traveler information website, www.Kandrive.org, for more highway condition and construction details. Persons with questions may contact Area Engineer Geryd Erbele at (620) 577-7314 or Public Affairs Manager Priscilla Petersen at (620) 902-6433.
