KDOT employee celebrates 40-year milestone

Glen Cunningham, an Engineering Technician Senior with the Chanute Materials Lab of the Kansas Department of Transportation (KDOT), has achieved a milestone and is celebrating 40 years of valued service to KDOT this April.

Cunningham began working for KDOT in April 1980 as an Engineering Technician Associate with the regional materials office at Garnett. Through the years he also worked at the Iola construction office, where he performed testing procedures on U.S. 169 bridge decks, and the materials lab at Chanute.

He said the favorite aspects of his work are the regular hours, flexible time schedule as needed, good co-workers and good benefits.

Glen and his wife, Betty, live in Iola. The couple has been married 41 years. They are the parents of 10 sons and two daughters, ages 20 to 39. Their youngest son attends college, and their second oldest son enlisted in the Army Rangers after high school and was awarded a Silver Star in the Iraq War. Glen and Betty also have 13 grandchildren.
