K-99 survey to start in Chautauqua County

The Kansas Department of Transportation (KDOT) plans to begin a field survey on K-99 in Chautauqua County on Monday, Aug. 26. The survey will cover 14 miles of K-99 from the U.S. 166B north junction at Sedan to the Chautauqua-Elk county line.

The survey is based on the existing alignment of the highway. Surveyors will gather information necessary for a detailed design of improvements to K-99. KDOT expects the work to be finished in 14 weeks, weather permitting.

A member of the survey crew will contact property owners and/or tenants for permission to enter private property. Activities include the use of survey instruments on the ground to determine locations of features within the corridor.

Field Survey Project Manager Joseph Bowen oversees this survey for KDOT. Persons with questions may contact Public Affairs Manager Priscilla Petersen at (620) 902-6433.
