Rumble strips to be installed on several highways in southeast Kansas

Starting Friday, May 17, and continuing Saturday and into the week of May 20, the Kansas Department of Transportation plans to install rumble strips on several highway sections in southeast Kansas:

- U.S. 400 in Greenwood County, shoulder rumble strips from the east K-99/U.S. 400 junction west to the Greenwood-Butler county line (16 miles);
- U.S. 69 in Linn County, shoulder rumble strips from the North Sugar Creek Bridge north to the Linn-Miami county line (six miles);
- U.S. 166 in Cherokee County, centerline rumble strips from the Spring River Bridge southeast to the Kansas-Missouri state line (six miles);
- K-68 in Franklin County, shoulder rumble strips between reference posts 20 and 22 west of Ottawa (two miles).

A pilot car operation will direct one-lane traffic through the work zone on the two-lane highway sections, with delays of 15 minutes or less. KDOT awarded the \$66,000 construction contract to Surface Preparation Technologies, Mechanicsburg, Penn. Persons with questions may contact KDOT Construction Engineer Troy Howard at (785) 448-5446 or Priscilla Petersen at (620) 902-6433.
