# **KDOT to make concrete repairs on U.S. 400 in Wilson and Montgomery counties**

**Chanute** – Tuesday, May 30, the Kansas Department of Transportation (KDOT) will begin a project to patch and repair concrete on U.S. 400 in western Wilson County. KDOT crews will begin working at the Greenwood-Wilson county line and continue east for approximately three miles. Flaggers and a pilot car will guide one-lane traffic through the work zone. Drivers can expect delays of 15 minutes or less between 7:30 a.m. and 3:00 p.m. weekdays. Weather permitting, the concrete repairs in Wilson County should be finished in two weeks.

Thursday, June 1, KDOT crews plan to begin replacing concrete panels at various locations on U.S. 400 in Montgomery County. The work starts at the Wilson-Montgomery county line and continues east to the U.S. 400/U.S. 169 junction. Temporary signals will be used to control one-lane traffic at the work zone. Traveler delays of 15 minutes or less are expected during both daylight and nighttime hours, seven days a week. KDOT expects the road work in Montgomery County to be completed by early August, weather permitting.

KDOT reminds drivers to obey the signs, flaggers and signals, and to 'Give 'Em a Brake!' at the work zones. For more information on these projects contact Marcus Leck, superintendent at the Independence KDOT office, (620) 331-3760, or Priscilla Petersen at the Chanute office, (620) 902-6433.
