## **Pavement Testing in Clark, Ford and Hodgeman County to Begin**

KDOT Crews will be conducting pavement testing on K-156 in Hodgeman County, on K-34 in Clark County and on K-94 in Ford and Clark County beginning Monday, October 9<sup>th</sup>. The Kansas Department of Transportation (KDOT) conducts these pavement tests annually on different highway segments, using a Falling Weight Deflectometer (FWD), a device equipped with a series of weights that checks the strength of asphalt pavement. The project is scheduled to be completed, weather permitting, on Thursday, October 12.

During the testing, traffic will be reduced to one lane in the testing area. KDOT urges drivers to be alert, pay attention to all work zone warning signs, slow down when approaching a work zone and be prepared to stop.

You can stay aware of all road construction projects across Kansas at [www.kandrive.org](http://www.kandrive.org) or by calling 5-1-1.
