## Survey work planned on K-18 in Russell County

The Kansas Department of Transportation plans to begin a field survey along K-18 in Russell County on June 13, weather permitting.

Survey work will be concentrated along the Wolf Creek drainage bridge located approximately 1/3 mile east of the U.S. 281 junction in Luray. The work is necessary to gather information for the detailed design for a proposed project to replace the bridge.

The survey is expected to last four weeks. Michael Selley, field survey project manager, is in charge of the survey for KDOT. For more information on the survey work, contact KDOT district public affairs manager Lisa Mussman at 785-877-3315 or [lmussman@ksdot.org](mailto:lmussman@ksdot.org).
