Bridge Repair on K-15 in Washington County

Monday, May 19, 2014 repair work began on a bridge on K-15 over Mill Creek just south of the city of Washington in Washington County. The deck of the bridge is under repair and patching will occur as needed. Traffic is reduced to one-lane and will be carried through the work zone via temporary traffic signals. There is a 12' width restriction in place within the work zone.

Plans call for construction work to be completed by July 5th weather permitting.

The purpose of this project is to extend the life of the bridge and improve ride quality.

This project is funded through T-WORKS. For more information concerning the T-works program and specific projects visit the T-works web site at www.ksdot.org/tworks.
