Bridge Repairs on I-135 in Saline County

Construction on an I-135 Bridge carrying traffic northbound over I-70 at the I-70/I-135/US-81 Interchange (95) will begin Monday, March 10th, 2014. The project involves replacement of the bridge joints. During construction I-135/US-81 northbound traffic will be reduced to one-lane. During the second phase of construction, those wanting to travel west on I-70 will join eastbound I-70 traffic to the 9th St. Interchange (252) where they will exit I-70 then reenter I-70 westbound to access US-81 north and/or westbound I-70. Plans call for the project to be completed by early July 2014 weather permitting.

The purpose of the project is to extend the life of the bridge while improving ride quality.

PBX Corp, of Sapulpa, OK, is the prime contractor. Project cost is \$188,490.00.
