# Survey Work Scheduled for K-28 in Cloud County

Surveyors will soon be conducting work on K-28 in Cloud County in order to gather information necessary for the detailed design of a replacement bridge over Wolf Creek. The survey will take place .2 miles west of the K-28/K-9 intersection and will cover .5 miles. The survey is scheduled to begin Wednesday, December 17<sup>th</sup> and will be completed in four weeks weather permitting.

A member of the survey crew will first contact property owners and/or tenants for permission prior to entering private property. Survey activities will include the use of survey instruments on the ground to determine locations of existing features within the survey corridor.

Kara LaRiviere, P.S., Field Survey Project Manager, will be in charge of this survey for the KDOT.

This project is funded through T-WORKS. For more information concerning the T-works program and specific projects visit the T-works web site at [www.ksdot.org/tworks](http://www.ksdot.org/tworks).
