# Semi crash effects traffic on I-70 Construction in Dickinson County UPDATE

Shortly after 8 AM on Wednesday, June 18, 2014, a Semi Tractor-trailer lost control and went off the highway within the work zone on I-70 near the Jeep Rd Interchange. Damaged guardrail has been removed and a detour was set in place to allow eastbound traffic to be removed from I-70 while a wrecker removed the semi from the scene. Once that task was completed eastbound traffic was returned to I-70 head to head with westbound traffic.

Currently the removed damaged guardrail is being replaced. While this is happening traffic will be slowed and flagged through that work area but will remain on I-70. Following the installation of the new guardrail traffic will return to normal flow through the I-70 project work area.
