US-77 Improvements at Rucker Rd in Junction City

Road work is progressing at the US-77/ Rucker Rd intersection. Beginning Wednesday May 11th, US-77 and Rucker Road traffic will be restricted at the US-77/Rucker Rd intersection due to the asphalt being milled during this phase of the project. All traffic using the intersection will be controlled by flagger and pass through the intersection following a pilot car. Delays of up to 15 minutes are possible. Drivers need to allow for the extra time to reach their destination or take an alternative route to avoid construction delays. Plans call for this phase to be completed on or about Friday, May 13, 2016 weather permitting.
