Field survey starting for culvert replacement in Republic County

Beginning Monday, Dec. 4, the Kansas Department of Transportation (KDOT) plans to begin a field survey to gather information necessary for a proposed culvert replacement on K-148 in Republic County.

The proposed improvements would be on K-148, about five miles west of the Washington/Republic County line. The length of the field survey will be about 2,000 feet, and the survey will be based on existing highway alignment.

Survey activities will include the use of survey instruments on the ground to determine locations of existing features within the corridor. A member of the survey crew will contact property owners or tenants for permission to enter private property.

KDOT expects this survey to be completed by Jan. 20, 2024.

Chad Marsh, P.S., Survey Project Manager, with Kirkham Michael will be in charge of this survey for KDOT. Persons with questions may contact KDOT Public Affairs Manager Ashley Perez at (785)826-6799.
