## **KanDrive web address updated** *Reliable road/weather information stays the same*

The KanDrive website, which provides up-to-date road and weather information for motorists across Kansas, has updated its web address to [www.KanDrive.gov](http://www.KanDrive.gov). Instead of ending with .org, the domain extension is now .gov.

There are no other changes to the website. People typing the old web address will automatically be directed to the KanDrive website. The address will also be updated soon in Google and other search engines.

Whether by desktop, mobile or tablet, more than 1.64 million KanDrive web sessions in 2022 provided users information that is updated 24/7 on highway maintenance and construction activities, winter highway conditions, flooded roadways, incidents and crashes affecting traffic and closed highways. WICHway and KC Scout can be directly accessed through KanDrive. A commercial vehicle mode also provides information for truck drivers.

Changing KanDrive's web address is part of an overall update to KDOT websites to help increase security and be consistent with government addresses.

Go to [www.KanDrive.gov](http://www.KanDrive.gov) and get started today.
