KDOT encourages participation in bus study survey to improve long-distance services

The Kansas Department of Transportation announces the launch of a comprehensive bus study survey to enhance public transportation services across the state.

Anyone can take the survey, especially users of public transit and intercity bus services. The survey will take about six minutes to complete and is available online at surveymonkey.com/r/KDOT-IntercityBusCommunitySurvey. The survey will close on Nov. 30.

The study will assess the current long-distance bus services provided by public transit agencies and private intercity carriers. Kansas supports three intercity bus carriers: Greyhound, Jefferson Lines and Village Travel.

The survey feedback KDOT receives will help shape the future of Kansas' bus services and meet the transportation needs of residents and communities across the state.

“Public transportation plays a crucial role in connecting communities and allowing access to essential services across the state,” said KDOT Public Transportation Manager Rene Hart. “The feedback we receive will guide our efforts to create a more efficient, accessible and responsive transit system that meets the diverse needs of our communities.”

For more information on the study, a list of frequently asked questions and more, visit ike.ksdot.gov/kansas-bus-study-2024 or contact Hart at Rene.Hart@ks.gov.
