Bridge work on U.S. 36 at Elwood continues

A bridge repair project is continuing on U.S. 36 at Elwood on two overpass bridges on the four-lane stretch of U.S. 36 that connects to the Missouri River bridge at St. Joseph, Mo., according to the Kansas Department of Transportation.

Repair work includes a concrete overlay. Traffic will be carried through construction using signage and traffic cones and is reduced to one lane. The completion date is expected to be in late December, weather permitting.

PCI Roads, LLC of St. Michael, Minn. is the contractor on the \$500,000 project.

This project began in August but was inadvertently not listed on KanDrive. It has been added to the site and can be seen on the construction map.

KDOT urges all motorists to be alert and obey the warning signs when approaching and driving through a highway work zone. To stay aware of all road construction projects across Kansas go to www.kandrive.org or call 5-1-1.
