K-110 Bridge Replacement Project Set to Begin in Marshall County

Weather permitting, on **Monday, April 30**, a replacement project will begin for the K-110 bridge located approximately .5-miles north of the of K-110 and US-36 intersection in Marshall County. Crews will replace the existing 24-foot reinforced bridge structure with a 32-foot wide reinforced concrete box. Work will take place daily during daylight hours throughout the project duration.

Beginning **mid-afternoon on Monday, April 30**, all lanes of the two-mile stretch of K-110 will be closed and will remain closed during the duration of the project. A ten-mile marked detour will be provided. Traffic will detour via US-36 four miles west to the US-36 and 26th Road junction, then two miles north to the 26th Road and Indian Road junction, then four miles east to the city limits of Axtell. Drivers should expect minor delays and must use alternate routes during the duration of the project.

Klaver Construction Inc. (Kingman, Kansas) is the primary contractor on this bridge replacement project with a total contract cost of \$444,541. **Project work is scheduled to be completed in early September 2012.**

This project is funded by T-WORKS, the transportation program passed by the Kansas Legislature in May 2010. Find out more about this and other T-WORKS projects at: <http://kdotapp.ksdot.org/TWorks/>.

The Kansas Department of Transportation urges all motorists to be alert, obey the warning signs, and "Give 'Em a Brake!" when approaching and driving through the

project work zone. For questions or additional information on this bridge replacement project, please contact Kimberly Qualls, Northeast Kansas Public Affairs Manager, at (785) 640-9340, or Kevin Palic, Construction Manager, at (913) 336-2183. (KDOT Project # 110-58 KA 0025-01)
