## K-170 Double Bridge Replacement Project to Begin in Osage County – **UPDATE!**

On **Monday, June 23**, a project will begin to replace two K-170 Bridges located approximately 3.5 miles east of Reading in Osage County. The project includes the removal of two existing bridge structures that will be replaced with a haunched slab span bridge and a reinforced concrete box. New guard fence and flatter side slopes will provide an extra measure of safety to the travelling public. Work will take place during daylight hours, Monday through Friday, with some occasional Saturday work. **The project start date has been rescheduled from Thursday, June 19 to Monday, June 23.**

**On Monday-Tuesday, June 23-24, crews will install traffic control for the project. Then sometime during the day, Wednesday, June 25, eastbound and westbound K-170 will be closed to all through traffic on either side of the two bridges throughout the project duration. A marked detour will be provided. From the K-170/K-99 intersection, traffic will detour via K-99 north to U.S. 56 south to K-170 east and conversely for traffic traveling the opposite direction. See detour map below.**

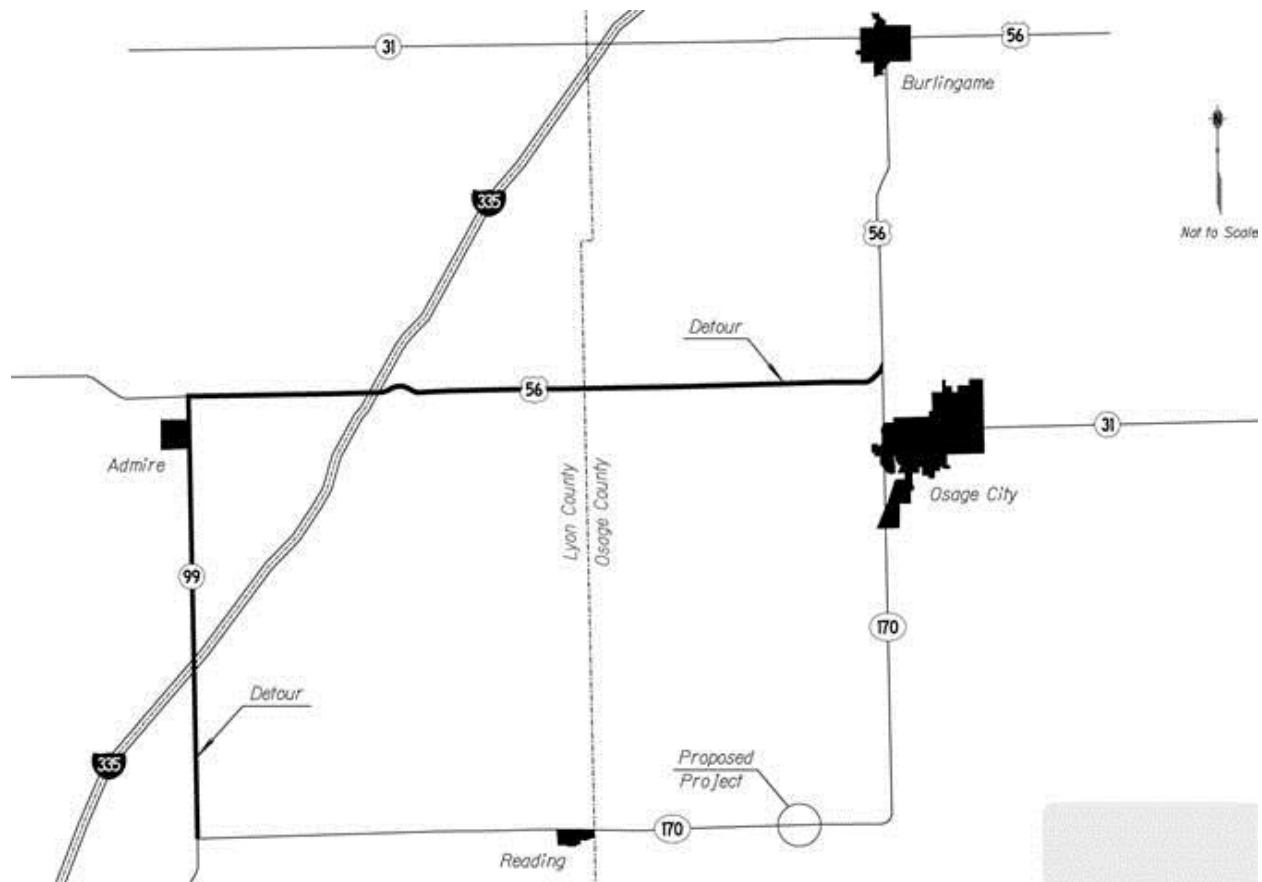

The Kansas Department of Transportation urges all motorists to be alert, obey the warning signs, and “Give ‘Em a Brake!” when approaching and driving through the project work zone.

Bryan-Ohlmeier Construction Co., Inc. (Paola, KS) is the primary contractor on this double bridge replacement project with a total contract cost of \$1.189 million. **The scheduled completion date for the bridge replacement project is late November 2014, weather permitting.**

This project is funded by T-WORKS, the transportation program passed by the Kansas Legislature in May 2010. Find out more about this and other T-WORKS projects at: <http://kdotapp.ksdot.org/TWorks/>.

For more information on this bridge replacement project, please contact Kimberly Qualls, Northeast Kansas Public Affairs Manager, at (785) 640-9340, or Nathan Anstey, Construction Manager, at (620) 342-5402. (*KDOT Project #170-70 KA-2076-01*)
