## **Culvert replacement on K-99 in Wabaunsee County begins Mar. 9**

A culvert replacement project on K-99 at approximately mile marker 154, in Wabaunsee County, is expected to begin Mar. 9, weather permitting. Work will occur during daylight hours and is expected to be completed in mid-July.

During the first 30 days of the project the contractor will build a temporary gravel road next to the project and two-way traffic will still be allowed on K-99 with a speed limit of 25 miles per hour. After the temporary road is completed, traffic will be detoured on to it continuing with a 25 miles per hour speed limit, while the culvert is being replaced.

Traffic will be controlled using speed limit signs, traffic cones and barricades.

Ebert Construction Co. of Wamego is the contractor on the \$450,000 project.

KDOT urges all motorists to be alert and obey the warning signs when approaching and driving through a highway work zone. To stay aware of all road construction projects across Kansas go to [www.kandrive.org](http://www.kandrive.org) or call 5-1-1. Drive safely and always wear your seat belt.
