Survey for proposed bridge replacements to begin in Lyon County

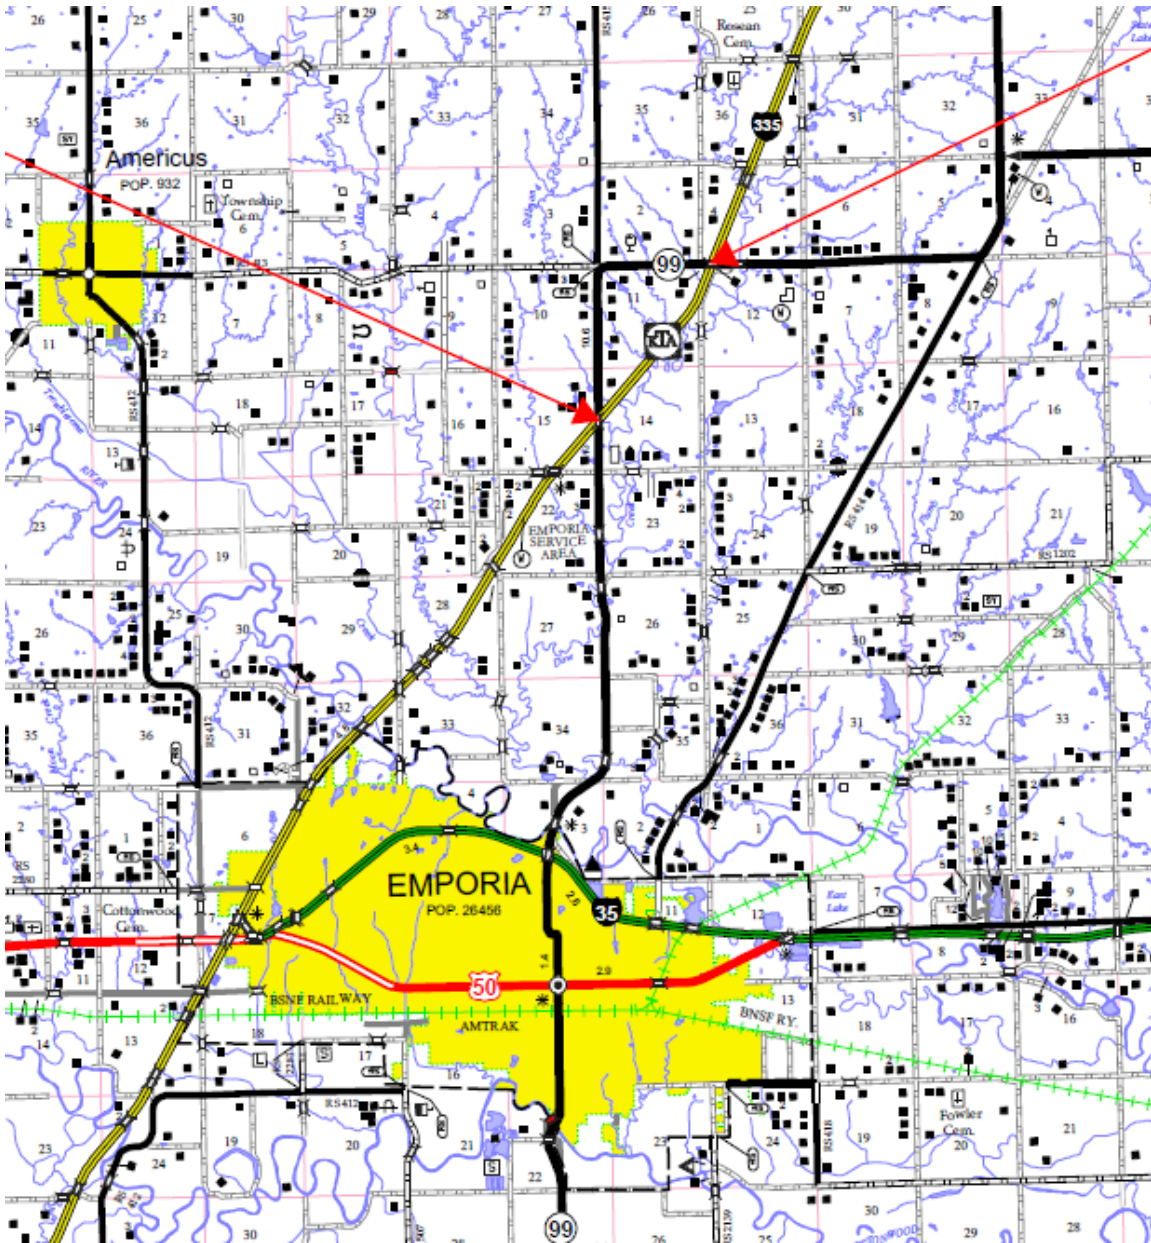

The Kansas Department of Transportation (KDOT) to conduct a field survey for the proposed replacement of two KTA bridges on I-335, located at mile markers 132.99 and 134.89, approximately four and six miles north of Emporia in Lyon County.

The survey is to gather information that is necessary for the detailed design of the proposed improvement. It will begin on or about Monday, Aug. 23, and is estimated to be completed by Sept. 3.

Joe Bowen, P.S., Field Survey Project Manager, will oversee this survey for KDOT.

A member of the survey crew first will contact property owners and/or tenants for permission to enter private property. Survey activities will include the use of survey instruments on the ground to determine locations of existing features within the survey corridor.

The map below shows the bridges locations.
