K-4 survey to begin Monday in Wabaunsee County

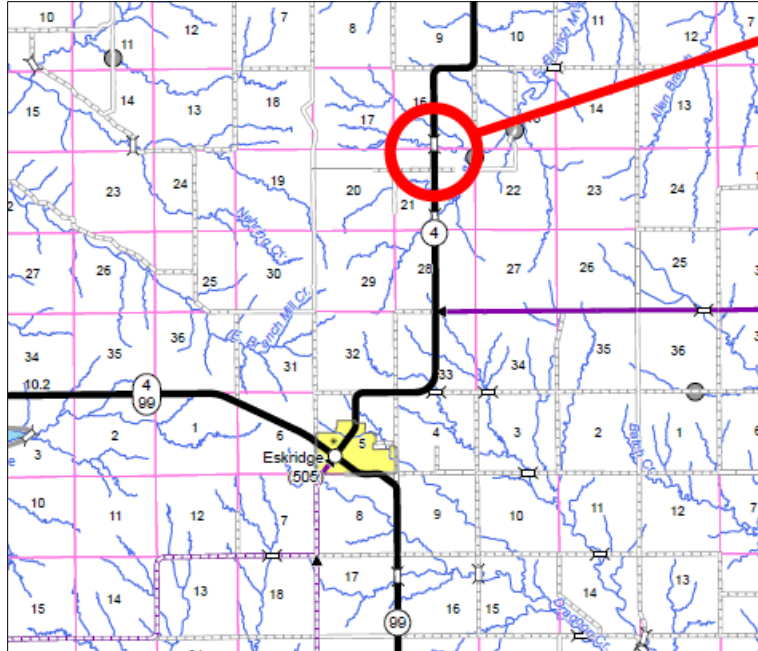

Beginning Monday, Oct. 17, the Kansas Department of Transportation (KDOT) will conduct a culvert replacement survey over South Bridge Mission Creek on K-4 in Wabaunsee County. The culvert is approximately five miles northeast of the K-4/K-99 junction in Eskridge.

The survey is to gather information that is necessary for the detailed design of the proposed improvement and is estimated to be complete by Dec. 30.

Brian Westburg, P.S., Survey Project Manager, BG Consultants, will oversee this survey for the Kansas Department of Transportation.

A member of the survey crew first will contact property owners and/or tenants for permission to enter private property. Survey activities will include the use of survey instruments on the ground to determine locations of existing features within the survey corridor.

The map below shows the project location.
