K-185 bridge survey planned in Wabaunsee County

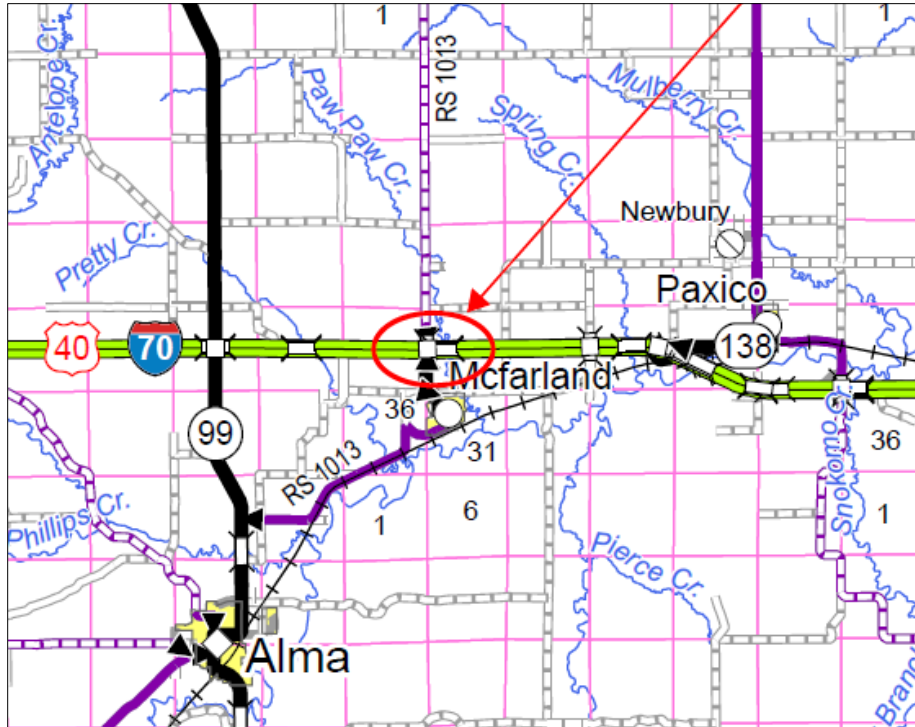

A Kansas Department of Transportation field survey will begin on Monday, July 24, on the K-185 bridge over I-70 located just north of McFarland in Wabaunsee County.

The survey is necessary to gather information for the detailed design of the proposed improvements and is expected to be completed by September 22.

Caleb Rubash, P.S., Survey Project Manager, Garber Surveying, will be in charge of the survey for KDOT.

A member of the survey crew first will contact property owners and/or tenants for permission to enter private property. Survey activities will include the use of survey instruments on the ground to determine locations of existing features within the survey corridor.

The map below shows the project location.
