Osage County bridge replacement project underway

A bridge replacement project is underway on South Stanley Road in Osage County. The bridge spans 110 Mile Creek and is located approximately 4 miles east of Vassar.

South Stanley Road will be closed at the worksite for the duration of the project, which is expected to be complete by November. No marked detour will be provided - drivers will need to find alternate routes.

King Construction Co. Inc., of Hesston, is the \$1.3 million project's prime contractor. A portion of the funding for this local project was obtained from the Kansas Department of Transportation, which will also oversee the project.

KDOT urges all motorists to be alert and obey the warning signs when approaching and driving through a highway work zone. To stay aware of highway construction projects across Kansas, go to www.KanDrive.gov or call 5-1-1.
