I-70 concrete panel replaced in Topeka Aug. 17-21

The Kansas Department of Transportation will be replacing a concrete panel on eastbound I-70 at Valencia Road from mile marker 349 to 351 on Monday, Aug. 17, through Friday, Aug. 21, weather permitting.

The eastbound driving lane will be closed with one lane traffic throughout the work zone. Drivers will be directed through the area by flashing lights, an arrow board and cones. Motorists should expect delays and add extra travel time to their commute.

KDOT urges all motorists to be alert and obey the warning signs when approaching and driving through a highway work zone. To stay aware of all road construction projects across Kansas go to www.kandrive.org or call 5-1-1. Drive safely and always wear your seat belt.
