U.S. 40/K-10 interchange closure scheduled in Lawrence

The Kansas Department of Transportation plans to begin the next phase of the U.S. 40/K-10 interchange project in Lawrence on Monday, June 3, conditions permitting.

This phase of the project will require the interchange to fully close while the new diverging diamond layout is constructed. U.S. 40/6th Street between the new John Wesley Drive and George Williams Way, and all K-10 on- and off-ramps will be closed to traffic.

Motorists can follow the signed detour on I-70 and K-10 or use alternate routes that are not marked. KDOT utilizes state highways for official detour routes for safety, weight and maintenance reasons.

K-10 will remain open through the area.

The K-10 ramps and at least one lane in each direction on U.S. 40 are expected to partially reopen in September. The new diverging diamond interchange (DDI) is scheduled to be fully open by the end of October.

KDOT urges all motorists to be alert and obey the warning signs when approaching and driving through a highway work zone. To stay aware of highway construction projects across Kansas, go to www.KanDrive.gov or call 5-1-1.
