

153 – MIXING PLANT FOR STABILIZED BASE AND SHOULDERS

SECTION 153

MIXING PLANT FOR STABILIZED BASE AND SHOULDERS

153.1 CENTRAL MIXING PLANT

Use a stationary mechanical mixing plant designed to blend component aggregates and distribute the required moisture uniformly throughout the mixture. Provide the Engineer with the means to verify the calibration of the plant.

153.2 TRAVELING MIXING PLANT

Use a traveling mechanical mixing plant designed to blend component aggregates and distribute the required moisture uniformly throughout the mixture without damaging the subgrade. Provide the Engineer with the means to verify the calibration of the plant.
