
**Administrative Modification #1
(as of 11/13/2014) to the Kansas
FFY 2015-2018 STIP**

Administrative Modification # 1 to the Kansas FFY 2015-2018 Statewide Improvement Program (STIP) updates the Metropolitan Transportation Improvement Programs narrative section of the STIP, pages 59-62. Specifically changes were made to the Transportation Improvement Program (TIP) information for the Wichita Area Metropolitan Planning Organization (WAMPO), the Metropolitan Topeka Planning Organization and the Lawrence Douglas County Metropolitan Planning Organization (L-DC MPO). The narrative section TIP information has been revised to reflect the recently adopted TIPs for each MPO. Additionally, updates were made to the WAMPO contact information.

METROPOLITAN TRANSPORTATION IMPROVEMENT PROGRAMS

Under Title 23 of the United States Code pertaining to transportation, communities with population greater than 50,000 are required to have a Metropolitan Planning Organization (MPO). The MPOs are responsible for coordinating transportation planning efforts in their region. Results from the 2010 census confirmed that the state of Kansas needed to establish a new MPO area in the Manhattan and Junction City metropolitan area. As a result, on February 20, 2013, the State of Kansas designated the Flint Hills Metropolitan Planning Organization (FHMPO) as the newest MPO in Kansas. The addition of the FHMPO brings the total number of MPOs in the state to six. The six Kansas MPOs are: the Mid-America Regional Council (covers the bi-state Kansas City metropolitan area), the Lawrence-Douglas County Metropolitan Planning Organization, the Wichita Area Metropolitan Planning Organization, the Metropolitan Topeka Planning Organization, the Flint Hills Metropolitan Planning Organization (covers Manhattan, Ogden and Junction City), and the St. Joseph Area Transportation Study Organization (covers the bi-state area of the St. Joseph, Missouri metropolitan area).

The planning process by the MPOs encompasses all modes of transportation and covers both short-range

and long-range transportation planning. MPO plans and programs are reviewed and approved by the Federal Highway Administration and the Federal Transit Administration. The role of the MPO is to coordinate the transportation planning activities within their region. This includes serving as a liaison between local communities, their citizens, and the state departments of transportation. MPOs help determine how and where available state and federal dollars for transportation improvements will be spent. As defined by federal and state transportation regulations, the primary functions of the MPO are to:

- Establish the goals, objectives and policies governing transportation planning in the region.
- Approve an annual Unified Planning Work Program and budget.
- Direct the preparation and adoption of the Metropolitan Transportation Plan (MTP) goals, objectives, and priorities.
- Program projects for implementation through the adoption of the Transportation Improvement Program (TIP).
- Dependent on attainment status: perform the air quality conformity determination for the TIP and MTP.

Projects within each MPO are incorporated in the Kansas STIP by reference of the TIP each MPO has in place. To view specific MPO project information and cost, follow the links provided below to each MPO TIP. In addition to TIP information, contact information and currently adopted MTP information, formerly referred to as the Long Range Transportation Plan (LRTP), is provided. As new TIPs or MTPs are adopted by MPOs, the new documents will be amended into this STIP using the amendment process.

**Mid-America Regional Council
(MARC)
Kansas City Metropolitan Area**

*FFY 2014-2018
Transportation Improvement Program*
