

Federal Lands & Tribal Transportation

FEDERAL LANDS & TRIBAL TRANSPORTATION PROGRAMS

The Federal Lands Highway program was established in 1983 and functions to provide funding and technical assistance through programs that serve the transportation needs of the Federal and Indian lands. With the passage of MAP-21 the core programs have undergone some changes but are essentially still intact.

Under MAP-21 three core programs: the Federal Lands Transportation (FLT), the Federal Lands Access (FLA) and the Tribal Transportation (TT) were established to ensure that all federally owned public roads and tribal transportation facilities are treated under uniform policies in a manner similar to those in effect for federal-aid highways and other public transportation and transportation related facilities. Funding is provided for several categories of FLT projects that improve access within national forests and national recreational areas or on infrastructure owned by the Federal government. The FLA program provides funding for projects for improvements in access to infrastructures owned by States and local public authorities (LPAs). A new requirement of this program is the need for States to provide a non-Federal match for the program funds. Under the third core program, the TT program, funding is provided for projects that improve access into and within Tribal

lands. This program is essentially a continuation of the former Indian Reservation Roads program under SAFETEA-LU with the addition of set asides for tribal bridge projects and tribal safety projects. The bridge set aside replaces the Indian Reservation Road Bridge program that was eliminated under MAP-21.

Additionally, MAP-21 establishes a new fourth discretionary program, the Tribal High Priority Projects (THPP) program. This new program is modeled after the former Indian Reservation Roads High Priority Projects program. Funds from this program are to aid in the completion of the high priority projects that Indian Tribes are unable to complete using only the TT funds they have been allocated. In addition to supplementing TT funding for high priority projects, projects for transportation facilities that have been rendered unusable or impassible as the result of an emergency or disaster are given priority.

Federal Lands Highway Projects

Currently, there are no FLH projects under construction or in development in Kansas. If future projects arise during the year, the projects will be added to KDOT's STIP using the amendment process. The FLH program is administered by the Office of Federal

Lands Highway. To learn more about the FLH projects and their programs visit the website at the following link:

<http://flh.fhwa.dot.gov/>

and for a list of projects in Kansas visit the following link:

<http://www.cflhd.gov/projects/StateProjects.cfm?State=KS> .

All four Nations, have projects anticipated during the STIP years. Following are the most recent TIPs for each of the four Nations listing the projects committed.

Tribal Transportation Projects

Four Indian Nations have reservations contained or partially contained within the State of Kansas. These Nations receive federal funding for roads and bridges from the two programs outlined above. The funds for the tribal lands are administered jointly by the Bureau of Indian Affairs (BIA) - Division of Transportation and the Office of Federal Lands Highway. To learn more about the BIA visit their website at the following link: <http://www.bia.gov/>.

The four Indian Nations in Kansas are:

Prairie Band of Potawatomi Indians,
located in Jackson County, Kansas

Kickapoo Nation of Kansas,
located in Brown County, Kansas

Sac and Fox Nation of Missouri,
located in Brown County, Kansas and
Richardson County, Nebraska

Iowa Tribe of Kansas and Nebraska,
located in Brown County, Kansas,
Doniphan County, Kansas and
Richardson County, Nebraska
