

# Federal Lands & Tribal Transportation

---

## FEDERAL LANDS & TRIBAL TRANSPORTATION PROGRAMS

---

The Office of Federal Lands Highway (FLH) administers a coordinated program of federal public roads and bridges; to protect and enhance our Nation's natural resources; and to provide needed transportation access for Native Americans. FLH was established in 1983 and functions to provide apportioned and allocated funding resources and technical assistance through programs that serve the transportation needs of the Federal and Indian lands.

Under the FAST Act the three core programs, the Federal Lands Transportation Program (FLTP), the Federal Lands Access Program (FLAP) and the Tribal Transportation Program (TTP) continue ensuring that all federally owned public roads and tribal transportation facilities are treated under uniform policies in a manner similar to those in effect for federal-aid highways and other public transportation and transportation related facilities. However, the FAST Act does not authorize funding for the Tribal High Priority Projects (THPP) program established under MAP-21. Instead, a new program Nationally Significant Federal Lands and Tribal Projects (NSFLTP) has been established to provide funding for nationally significant construction, reconstruction and rehabilitation projects on Federal or tribal lands.

For the FLTP the distribution of funds has changed with the recently passed FAST Act with specified agencies receiving funding in apportioned amounts for the first time. The following agencies: National Park Service, United States (US) Fish and Wildlife Service and United States Department of Agriculture (USDA) Forest Service all receive funding in specified apportioned amounts in each of the five years of the act. While the remaining funds will be allocated competitively among the Bureau of Land Management, US Army Corp of Engineers, the Bureau of Reclamation and other independent Federal agencies with natural resource and land management responsibilities. The Bureau of Reclamation and other independent Federal agencies with natural resource and land management responsibilities became eligible for funding under the FAST Act legislation. Funding is provided for several categories of FLTP projects that improve access within national forests and national recreational areas or on infrastructure owned by the Federal government. Additionally, under the FAST Act a portion of the combined funds from the FLTP and FLAP are to be set-aside (at a rate of not more than 5 percent of the combined total) to be used for transportation planning, asset management, data collection, cooperative research and technology deployment and

---

bridge inspections within lands under the tribal and federal lands jurisdiction. With the passage of the FAST Act the core programs and eligibilities are retained and the Federal funding participation remains at 100 percent for all projects that provide access to or within Federal land.

The FLAP eligibilities and features were not modified under the FAST Act. FLAP funds are still distributed by formula among states that have Federal lands and provide funding for projects that improve access to infrastructures owned by States and local public authorities (LPAs). States continue to be required to provide a non-Federal match for the program funds. However, a new provision under the FAST Act is the requirement for a portion of the FLAP funding to go towards set asides as described in the FLTP section.

In the third core program, the TTP eligibilities and features are essentially the same in the FAST Act as under MAP-21 with minor changes. The set-asides established in MAP-21 for tribal bridge projects, tribal safety projects, program administration, planning and tribal supplemental funding continue with only small adjustments in some of their funding amounts. The funding provided for projects that improve access into and within Tribal lands continues to be allocated among the Tribes based upon formula without change and the Federal funding participation remains at 100 percent.

Under the fourth and new program, the NSFLTP entities eligible to receive TTP, FLAP or FLTP funding are eligible for funding. Additionally, a State, county or local entity may apply for funding if sponsored by an eligible Federal land management agency or Indian tribe. As previously stated, this program is intended to fund nationally-significant projects on Federal or tribal lands. Projects will be selected from applications submitted to FHWA with eligible projects having a minimum cost estimate of \$25 million and with preference given to projects with cost estimates of \$50 million and greater. For more information about this program or other Federal lands or tribal transportation programs refer to the FAST Act web page

<https://www.fhwa.dot.gov/programs/>.

### **Federal Lands Highway Projects**

Currently, there are four FLH projects under construction or in development in Kansas. If future projects arise during the year, the projects will be added to KDOT's STIP using the amendment/ administrative modification process. The FLHP is administered by the Office of Federal Lands Highway which is divided into three regions-Western, Central and Eastern. The Central Federal Lands Highway Division (CFLHD) is responsible for the administration of projects in Kansas. To learn more about the FLH projects and their programs visit the website at the following link:

<http://flh.fhwa.dot.gov/> and for a list of

---

projects in Kansas visit the following link:  
<http://flh.fhwa.dot.gov/programs/flpp/tip/cfl.htm/>. Following this program discussion is the most recent TIP for the CFLHD, listing the projects committed in Kansas.

### **Tribal Transportation Projects**

Four Indian Nations have reservations contained or partially contained within the State of Kansas. These Nations receive federal funding for roads and bridges from the programs outlined above. The funds for the tribal lands are administered jointly by the Bureau of Indian Affairs (BIA) - Division of Transportation and the Office of Federal Lands Highway. To learn more about the BIA visit their website at the following link:  
<http://www.bia.gov/>.

The four Indian Nations in Kansas are:

***Prairie Band of Potawatomi Indians,***  
**located in Jackson County, Kansas**

***Kickapoo Nation of Kansas,***  
**located in Brown County, Kansas**

***Sac and Fox Nation of Missouri,***  
**located in Brown County, Kansas and**  
**Richardson County, Nebraska**

***Iowa Tribe of Kansas and Nebraska,***  
**located in Brown County, Kansas,**  
**Doniphan County, Kansas and**  
**Richardson County, Nebraska**

All four Nations, have projects anticipated during the STIP years. Immediately

following the CFLHD TIP are the most recent TIPs in place for each of the four Nations listing the projects committed. If changes are made to either the Federal Lands TIPs or the Tribal TIPs during the year, the changes will be integrated into KDOT's STIP using the amendment/administrative modification process.
