

# Projects Administered by KDOT

---

## PROJECTS ADMINISTERED BY KDOT

---

This section provides information about the projects the Kansas Department of Transportation (KDOT) will administer for the period October 1, 2018 through September 30, 2022. These projects are contained within the four appendixes that follow. The appendixes are Appendix A- State Transportation Improvement Program Interim Project Index; Appendix B- State Transportation Improvement Program FFY 2019-2022 Project Index; Appendix C- Summary of State Transportation Improvement Program Appendixes A & B Estimated Obligation; and Appendix D- State Transportation Improvement Program Advance Construction Project Index.

Appendix A is a list of interim FFY 2018 projects with a work phase(s) anticipated to obligate during the preparation and comment period of the new FFY 2019-2022 STIP. The index is in county, then project number order. Appendix B lists all projects with at least one work phase anticipated to obligate for the first time within the FFY 2019-2022 STIP. The projects are indexed by county and then project number order. Both appendixes provide general project information including project number, work type, county, route, project length, letting type, NHS status, description, location and scope. Additionally, project funding information including identification of project work phase(s), work

phase(s) year of anticipated obligation, total work phase(s) cost estimate and total project estimated cost is provided. (The total estimated project cost includes all work phase(s) even those that are not within the period of the current STIP. For this reason, the individual work phase totals listed in the STIP may not always sum to the total estimated project cost.) Furthermore, for work phases anticipated to obligate in the STIP FFY 2019-2022 or for interim projects in FFY 2018, funding sources are identified along with the participation anticipated from each source.

Appendix C provides a summary of total anticipated obligation federal (including the anticipated obligation totals for projects anticipated to be obligated for AC), state and local by federal fiscal year and by work phase for the four STIP years FFY 2019-2022 and for the Interim year FFY 2018. However, Appendix C does not include projects within the MPO areas. The summary is strictly limited to those projects administered by KDOT and listed in Appendixes A & B.

Listed in Appendix D are estimated conversion amounts for all projects designated as advance construction (AC) including projects within MPO boundaries. Projects are arranged by county and project number order. Gen-

---

eral project information is provided including the route, project description, project work type, the year(s) of expected conversion, the anticipated conversion amount for each year of conversion and the total anticipated conversion amount for each project. Conversions projected to occur after the four years of the STIP are grouped together in a single column titled “After 2022 Planned Conversion”. A sum of total conversions by year for each of the four STIP years and for the Planned Conversion after 2022 is provided. Additionally, a total planned conversion amount that includes all years is provided.

All projects designated with AC are done so with federal approval and have been initiated in advance of federal fund authorization for that specific project. All costs incurred on the project while designated as an AC project are the responsibility of the initiating entity (State/Local/Other). In the future when federal aid apportionment and obligation authority becomes available, the AC funded projects are “converted” to federal funds and reimbursement is requested.

The Project Indexes (Appendixes A & B) and the Advance Construction Project Index, Appendix D, may have overlapping projects. This occurs when a project has an estimated obligation within the STIP period in one work phase and has an expected advance construction conversion in a different work phase, which results in the project ap-

pearing in Appendix A and/or B and Appendix D. Likewise, it is possible for a project to appear in Appendix D and not be in Appendix A and/or Appendix B. In this scenario, all project work phase obligations have occurred in prior years or are scheduled for future years – not in the STIP period and are not being reported in the STIP, while the work phase(s) using advance construction has yet to convert.

The information in Appendixes A, B, C & D is not the same as the information provided in the Estimated Obligations for KDOT, Local, Metro Projects table in the Program Financing section. The information in the Estimated Obligation table includes estimated obligations for projects in MPO areas and the estimated obligations are for federally projected obligations only. The information in Appendixes A, B & C is for KDOT administered projects only – projects in MPO areas are not included and Appendix C-the Summary of Obligations are for all obligations anticipated state, local and federal- not just federal- as is provided in the Estimated Obligations for KDOT, Local, Metro Projects table in the Program Financing section. Additionally, the Appendix C Summary totals for each year include AC projected to obligate. However, the projected obligation of AC is not included in the Estimated Obligations for KDOT, Local, Metro table in the Program Financing section. These differences preclude the summing of Appendix C Summary totals by year and Appendix D-Total Anticipated AC conversion by year to arrive at the total federal obligation for a year as provided

in the Estimated Obligations for KDOT, Local, Metro Projects table in the Program Financing section.

The project indexes include the following project related information – Appendix D information is identified by an (\*); Appendix A & B provide all items listed below except for Planned Conversion and Total Planned Conversion which are in Appendix D only.:

- County\* - identifies county where work occurs
- Fund Category Code – how the project is funded; one line is *shown for each type of funding* used on a project
- Letting Type – identifies whether a project is being let or not and if let who is letting the project
- NHS Project – indicates whether project is on the National Highway System
- Planned Conversion\* – anticipated dollar amount to be converted to federal funds through the conversion of AC project
- Project Length - in miles
- Project Location – brief description of where the project is
- Project Name\* –general description of the project
- Project Number\* -KDOT number used to track individual project work
- Project Scope –general description of the work being performed
- Route\* - identifies route on which work occurs
- Work Phase – identifies the phase of work being performed
- Work Phase Estimate – the estimated cost to complete the phase of work.
- Work Phase Estimated Obligation Amount – expected dollar amount to be obligated for the work phase by fund category.
- Work Phase Fund Prorata - the percentage of the funds for the work phase being

- contributed by the fund category
- Work Phase Fund Prorata - the percentage of the funds for the work phase being contributed by the fund category
- Work Phase Obligation FFY – the federal fiscal year in which the work phase is anticipated to be obligated
- Work Type\* - the type of work to be accomplished during the project
- Total Planned Conversion\* – sum of all anticipated advance construction conversions for a project.

Listed below are definitions for the work type acronyms used in the project indexes (Appendixes A, B & D).

ABATE	ABATEMENT
ADMIN	ADMINISTRATION
ASPH	ASPHALT PAVEMENT SHOULDERS
BR	BRIDGE
BR-OL	BRIDGE OVERLAY
BR-WD	BRIDGE WIDEN
BRDEC	BRIDGE DECK
BRPAT	BRIDGE DECK PATCHING
BRPNT	BRIDGE PAINT
BRREM	BRIDGE REMOVAL
BRRPL	BRIDGE REPLACEMENT
BRRPR	BRIDGE REPAIR
BRSUB	BRIDGE SUBSTRUCTURE
BRSUP	BRIDGE SUPERSTRUCTURE
CAAGT	CARE AGREEMENT FOR MAINTENANCE OF NEW LANDSCAPE
CBGUT	CURB & GUTTER, NEW OR REPLACE
CCTV	REMOTE TRAFFIC MONITORING
CONC	CONCRETE PAVEMENT
CONST	CONSTRUCTION CONTRACTS
CONVT	CONVENTIONAL SEAL
CRRPR	CRACK REPAIR
CRYOL	COLD RECYCLE & OVERLAY
CULV	CULVERT
DET	DETOUR(S)
DIAGD	DIAMOND GRINDING CONCR PAVEMENT
FENCE	FENCING
FLOOD	FLOOD DAMAGE
FLTSG	FLASHING LIGHT SIGNALS
FUNDS	FUNDS ONLY
GDFC	GUARD FENCE

GGMOD	GORE & GUARD FENCE	SEED	SEEDING, SODDING
GR	GRADING	SG	SIGNING
GR-CU	GRADE & CULVERT	SGROL	SPOT GRADE & OVERLAY
GRBR	GRADE & BRIDGE	SHHWP	SCENIC OR HISTORIC
GRBRS	GRADE, BRIDGE & SURFACING		HIGHWAY PROGRAMS
GRSU	GRADE & SURFACING	SHLD	SHOULDERS
HSPRV	HISTORIC PRESERVATION	SLIDE	SLIDE REPAIR
INTCH	INTERCHANGE(S)	SLURY	SLURRY SEAL
INTER	INTERSECTION IMPROVEMENT	SPECL	SPECIAL
ITS	INTELLIGENT TRANS- PORTATION SYSTEM	SRA	SAFETY REST AREA
		STPIL	STOCKPILE BITUMINOUS MATERIAL
JTRPR	JOINT REPAIR	STUDY	LOCATION STUDY
LNDBT	LANDSCAPING & BEAUTIF- ICATION	SU	SURFACING
		SU-BR	SURFACE & BRIDGES
LT	LIGHTING	SU-SG	SURFACING & SIGNAL
MILLG	MILLING	SUSGL	SURFACING, SIGNAL & LIGHT- ING
MILOV	MILLING & OVERLAY		
MITWP	MITIGATION OF WATER POLLU- TION	TRSGN	TRAFFIC SIGNALS
		TURF	TURF SHOULDERS
MIXNG	MIXING, ASPHALT	UBAS	ULTRA THIN BONDED ASPHALT SURFACING
MUDJK	MUDJACKING		
MTREG	REGULAR MAINTENANCE	UTIL	UTILITY AGREEMENTS
NEOGT	NEGOTIATED CONTRACT	1.0OL	1 INCH OVERLAY
NOBAR	NOISE BARRIER	1.5OL	1.5 INCH OVERLAY
O-LAY	OVERLAY	3/4OL	3/4 INCH OVERLAY
OL-GG	O-LAY, GORE, GUARD FENCE	2.0OL	2 INCH OVERLAY
OL-SH	O-LAY & SHOULDER	3.0OL	3 INCH OVERLAY
OL-WD	O-LAY, SHOULDER, WIDEN	3.5OL	3.5 INCH OVERLAY
PARK	STATE PARK ROADS	4.0OL	4.0 INCH OVERLAY
PATCH	PAVEMENT PATCHING		
PAVMK	PAVEMENT MARKING		
PAVRC	PAVEMENT RECONSTRUCTION		
PD-OP	PEDESTRIAN OVERPASS		
PE	PRELIMINARY ENGINEERING		
PEDBI	PEDESTRIAN & BICYCLE PATHS		
PEROW	PRELIMINARY ENGINEERING & RIGHT OF WAY	FORCE	an agreement with a LPA (local public authority) in which the LPA is responsible for the construction work
PERWU	PRELIMINARY ENGINEERING, RIGHT OF WAY & UTILITIES		
RAMP	RAMP IMPROVEMENT	KDOT	Construction letting where KDOT is responsible for letting the pro- ject
RCYLE	RECYCLE & OVERLAY		
RLTRL	PRESERVATION & RAILWAY FOR TRAILS	LOCAL	Construction letting where the LPA is responsible for letting the project
RNDBT	ROUNDAABOUT		
ROCK	ROCK SHOULDERS	NEGOT	an agreement with a vendor for the work, not part of the letting process -often used for emer- gency repairs, landscape mainte- nance, etc...
ROHTB	REHAB & OPERTN HISTORICAL TRANSPORTATION BLDG		
ROW	RIGHT OF WAY		
RRIMP	RAILROAD IMPROVEMENT		
RSIMP	ROADSIDE IMPROVEMENT		
RUMBL	RUMBLE STRIP INSTALLATION	NONE	No letting on the project where no construction work is being done or where the construction work is by KDOT forces
SCREN	SCREENING		
SEAL	SEALING		

Listed below are the letting types that may appear in the project indexes project information portion (Appendixes A & B) and a definition for each:

Listed below are the four core KDOT programs and their associated subcategories. The program abbreviation and subcategory abbreviations are provided as part of the project information section of the project indexes (Appendixes A & B).

**P- Preservation—**

**Taking Care of What We Have**

- 1RR- Non-Interstate Resurfacing (PMS 1R)
- BCR- Culvert Repair
- BSP- Bridge Painting
- BSR- Bridge Repair
- CMN- Contract Maintenance (PMS)
- EMR- Emergency Repair
- IRP- Interstate Basic Improvement
- ISR- Interstate Resurfacing (PMS)
- NHP- Miscellaneous for Preservation
- PBR- Bridge Replacement/Rehabilitation
- PCR- Culvert (to Bridge) Rehabilitation
- PDR- Bridge Redeck
- PMR- Pavement Marking
- RIP- Non-Interstate Basic Improvement
- RRS- Railroad Crossing Surfacing
- SLR- Signing & Lighting Repair and Replacement
- SOS- Highway Signing
- SRR- State Route Removal Program

---

**M- Modernization—****Safety & Shoulder Improvements**

- IRS- Resurfacing with Improvements  
(Practical Design)
- COR- Corridor Management
- GSI- General Safety Improvement Projects
- IRI- Interstate Roadway Geometric  
Improvements
- KCC- KCC Railroad Crossing Projects
- LTG- Highway Lighting
- MPR- Miscellaneous

**E- Expansion/Enhancement—****Adding Something New**

- AAR- Advanced Acquisition of ROW
- EDP- Economic Development
- IRC- Interstate Capacity Improvement
- ITS- Intelligent Transportation Systems
- RIC- Non-Interstate Capacity Improvement
- RSL- Local Partnership Railroad Grade  
Separations
- RSP- New Railroad Grade Separations (State)

**L- Local Construction**

- HAZ- Safety Projects (HSIP, off-system)
- HES- Safety Projects (HSIP, on-system)
- K1R- KLINK Surface Preservation
- K2R- KLINK Pavement Restoration
- K3R- Geometric Improvements for KLINKs
- LBT-Local Bridge Transfer Program
- LOC- Local Construction  
(Local Administered & Let)
- RES- Local Construction  
(KDOT Administered & Let)
- RRX- Railroad Crossing Protection  
(HSIP, on-system)
- RXR- Railroad Crossing Protection  
(HSIP, off-system)
- SRT- Safe Routes to Schools (Federal)
- TEX- Transportation Enhancement Program

**O- Operations \***

- KLM- KDOT DAIX 0403 Funded
- CMT- Contract Maintenance, DAIX 0403  
Funded M Jurisdiction

\*The Operations program is not a “Core” program and is not discussed in the Project Selection Criteria section of this document because in general these projects are not construction orientated. The projects in this program are related to research, planning, training and overhead. Like the core programs- projects under the operations program are grouped by similar characteristics into subcategories. Two subcategories of projects from the Operation Program are listed in the STIP Appendixes of projects -the Disadvantaged Businesses Enterprises (DBE) Program projects and the Stockpile Contract Maintenance projects. The DBE program of projects is a program with federal funds allocated annually by FHWA from the Federal transportation act and, therefore, are required to be included in the STIP. These projects are assigned the subcategory KLM in the Operation program and are training related. The second project type is the ‘M’ jurisdiction stockpile projects. These projects are for the storage of materials for KDOT’s surfacing projects. These projects while state funded are associated with road work and for that reason are listed in this document alongside the related surfacing projects. Stockpile projects are in the CMT subcategory of the Operation program.

## HOW TO READ THE STIP PROJECT APPENDICES A & B

The project appendices A & B list projects anticipated to obligate in the State of Kansas during the STIP years. Appendix A is an index of interim projects from the prior federal fiscal year that are projected to obligate during the new STIP's comment period. Appendix B is an index of projects in the current federal fiscal year plus three subsequent federal fiscal years anticipated to have a work phase(s) obligate. Both indexes show all expected obligations- federal, state, local and other. Below is a diagram that identifies the fields provided for the projects listed in the appendices.
