---

## FEDERAL LANDS & TRIBAL TRANSPORTATION PROGRAMS

---

The Federal Lands Highway program was established in 1983 and functions to provide funding and technical assistance through programs that serve the transportation needs of the Federal and Indian lands. With the passage of MAP-21 the core programs have undergone some changes but are essentially still intact.

Under MAP-21 three core programs: the Federal Lands Transportation (FLT), the Federal Lands Access (FLA) and the Tribal Transportation (TT) were established to ensure that all federally owned public roads and tribal transportation facilities are treated under uniform policies in a manner similar to those in effect for federal-aid highways and other public transportation and transportation related facilities. Funding is provided for several categories of FLT projects that improve access within national forests and national recreational areas or on infrastructure owned by the Federal government. The FLA program provides funding for projects for improvements in access to infrastructures owned by States and local public authorities (LPAs). A new requirement of this program is the need for States to provide a non-Federal match for the program funds. Under the third core program, the TT program, funding is provided for projects that improve access into and within Tribal

lands. This program is essentially a continuation of the former Indian Reservation Roads program under SAFETEA-LU with the addition of set asides for tribal bridge projects and tribal safety projects. The bridge set aside replaces the Indian Reservation Road Bridge program that was eliminated under MAP-21.

Additionally, under MAP-21, a new fourth discretionary program, the Tribal High Priority Projects (THPP) program was established. This new program is modeled after the former Indian Reservation Roads High Priority Projects program. Funds from this program are to aid in the completion of the high priority projects that Indian Tribes are unable to complete using only the TT funds they have been allocated. In addition to supplementing TT funding for high priority projects, projects for transportation facilities that have been rendered unusable or impassible as the result of an emergency or disaster are given priority.

### **Federal Lands Highway Projects**

Currently, there are no FLH projects under construction or in development in Kansas. If future projects arise during federal fiscal year 2014, the projects will be added to KDOT's FFY 2014-2017 STIP using the amendment process. The FLH program is adminis-

---

tered by the Office of Federal Lands Highway. To learn more about the FLH projects and their programs visit the website at the following link: <http://flh.fhwa.dot.gov/> and for list of projects in Kansas visit the following link: <http://www.cflhd.gov/projects/StateProjects.cfm?State=KS>.

Only three of the four Nations, the Iowa Tribe of KS & NE, the Prairie Band Potawatomi Nation and the Sac and Fox Nation of Missouri have projects anticipated in the STIP years. Following are the most recent TIPs in place for each of the three Nations with the projects committed listed.

### **Tribal Transportation Projects**

Four Indian Nations have reservations contained or partially contained within the State of Kansas. These Nations receive federal funding for roads and bridges from the two programs outlined above. The funds for the tribal lands are administered jointly by the Bureau of Indian Affairs (BIA) - Division of Transportation and the Office of Federal Lands Highway. To learn more about the BIA visit their website at the following link: <http://www.bia.gov/>.

The four Indian Nations in Kansas are:

***Prairie Band of Potawatomi Indians,***  
**located in Jackson County, Kansas**

***Kickapoo Nation of Kansas,***  
**located in Brown County, Kansas**

***Sac and Fox Nation of Missouri,***  
**located in Brown County, Kansas and**  
**Richardson County, Nebraska**

***Iowa Tribe of Kansas and Nebraska,***  
**located in Brown County, Kansas,**  
**Doniphan County, Kansas and**  
**Richardson County, Nebraska**

## **INDIAN ROADS RESERVATION PROGRAM CSTIPS Module of ITIMS**

### **CSTIP Report**

The CSTIP report shows the full contents of one or more CSTIPS.

For example, if the report is requested for a particular reservation with a managing entity that also manages two other reservations, then projects for all three reservations are reported. This means that subtotal amounts are always correct, no matter what the filter might be. However, see the next remark on how to read subtotals.

The CSTIP Subtotal is the full total for values on the CSTIP.

The state subtotal is the sum of the values in the state and on the current CSTIP. This report does not show overall state totals.

The location subtotal is the sum of values for projects on a particular reservation and in a particular state. When a reservation lies in two states, project data for each part including the subtotal is presented in separate places.

Any type of CSTIP may be the subject of the report.
