Annual Average Daily Traffic (AADT)  
Traffic Counts Recorded in FY 2008 (July 2007 - June 2008)

## LEGEND

<b>Road Key</b>	<b>Count Legend</b>
Over 10000	Short-term counter
7500 to 10000	Vehicle Classifier
5000 to 7500	Continuous Counter
2500 to 5000	2600 - Total Volume
1000 to 2500	300 - Heavy Commercial Volume
Less than 1000	

The traffic counts shown on this map represent estimates of the Annual Average Daily Traffic (AADT) for the year ending June 30, 2008. These AADTs are derived mainly from 24-hour volumes recorded by portable traffic counters. These short-term counts are adjusted for day-of-week and seasonal variations using data from 80 continuous permanent counters. An axle correction factor has been applied to each short-term count. Heavy commercial volumes were derived from short-term vehicle classification counts. These count locations are indicated by bold numbers on the map. Heavy commercial counts at other locations are estimated from nearby counts on the same route or from other routes known to have similar traffic characteristics. AADTs that are provided by continuous counters are underlined.
