U.S. Department of Transportation
Federal Highway Administration

Annual Average Daily Traffic (AADT)
Traffic Counts Recorded in FY 2009 (July 2008 - June 2009)

LEGEND			
	Over 10000		Count Legend
	7500 to 10000		1000 Short-term Counter
	5000 to 7500		1000 Vehicle Classifier
	2500 to 5000		1000 Continuous Counter
	1000 to 2500		2000 - Total Volume
	Less than 1000		300 - Heavy Commercial Volume

The traffic counts shown on this map represent estimates of the Annual Average Daily Traffic (AADT) for the year ending June 30, 2009. These AADTs are derived mainly from 24-hour volumes recorded by portable traffic counters. These short-term counts are adjusted for day-of-week and seasonal variations using data from 81 continuous permanent counters. An axle correction factor has been applied to each short-term count. Heavy commercial volumes were derived from short-term vehicle classification counts. These count locations are indicated by bold numbers on the map. Heavy commercial counts at other locations are estimated from nearby counts on the same route or from other routes known to have similar traffic characteristics. AADTs that are provided by continuous counters are underlined.
