**State-wide Project Award Winner:**

**Grading, Bridge and Surfacing: Ebert Construction and Lochner with the Marion Construction Office (\$7,216,411) Project # 135-59 KA 2366-01**

There were many more outstanding projects submitted that were not selected. More to the point, we are simply not able to recognize the thousands of individuals across Kansas who we can all count on for solid advice, to be reasonable, who listens carefully, considers all sides, and consistently brings vision to difficult problems. To them, we are grateful and looking forward to a good construction season in 2018.

Thank you
