U.S. 50 passing lanes survey to begin in Edwards County

The Kansas Department of Transportation will soon start surveying on U.S. 50 in Edwards County for a proposed passing lanes extension west of Kinsley.

The proposed improvement would extend existing passing lanes for about a mile to the east between Offerle and Kinsley.

The survey length will be about 1.4 miles. The survey will be based on the existing alignment. The initial field survey is expected to begin around Monday, June 29, and last 10 weeks. The survey is done to gather information for a detailed design of the proposed passing lanes expansion.

The survey crew will contact property owners or tenants for permission to enter private property.

Surveyors will use equipment on the ground to determine locations of existing features in the survey corridor.

See map of general location below.
