U.S. 50 stretch in Edwards County to get pavement repair

A crew soon will start repairing pavement cracks on a nearly 22-mile section of U.S. 50 in Edwards County.

The project, overseen by the Kansas Department of Transportation, is scheduled to begin around March 2, depending on weather conditions.

The repairs will be done on a 21.6-mile stretch of U.S. 50 in Edwards County: from the east city limits of Kinsley east to the Edwards/Stafford County line.

The work is expected to be completed around mid-March to early April, depending on the weather.

During the project, traffic approaching the work site will be directed to slow down and stop for signs. Traffic will then be directed to follow a pilot car on one lane through the work zone. Scodeller Construction Inc., of Wixom, Mich., is the primary contractor for the \$136,278 project.
