### **U.S. 54 passing lanes survey to begin in Pratt County**

The Kansas Department of Transportation will begin surveying on U.S. 54 in western Pratt County for a proposed passing lanes extension.

The survey would extend existing passing lanes in both directions between Cullison, in western Pratt County, and Wellsford, in eastern Kiowa County.

The length of the survey is 3.6 miles; the survey will be based on the existing highway alignment.

The survey will begin around Monday, June 29, and is expected to last about 10 weeks.

The work will collect information needed for detailed design of the proposed improvement.

The survey crew will contact property owners and tenants for permission to enter private property. The crew will be using survey instruments on the ground to determine locations of existing features within the survey corridor.

**See map below of general area of survey, between Cullison and Wellsford.**
