K-14 bridge south of Kingman to be replaced; there will be detour

A nearly \$1.4 million project to replace a K-14 bridge near Kingman will begin soon, and some K-14 motorists will need to use a detour during the work.

The project will replace the bridge at Hunter Creek about 3 miles south of Kingman on K-14.

The work is scheduled to start around June 1 and is scheduled to be completed around mid-November, depending on the weather.

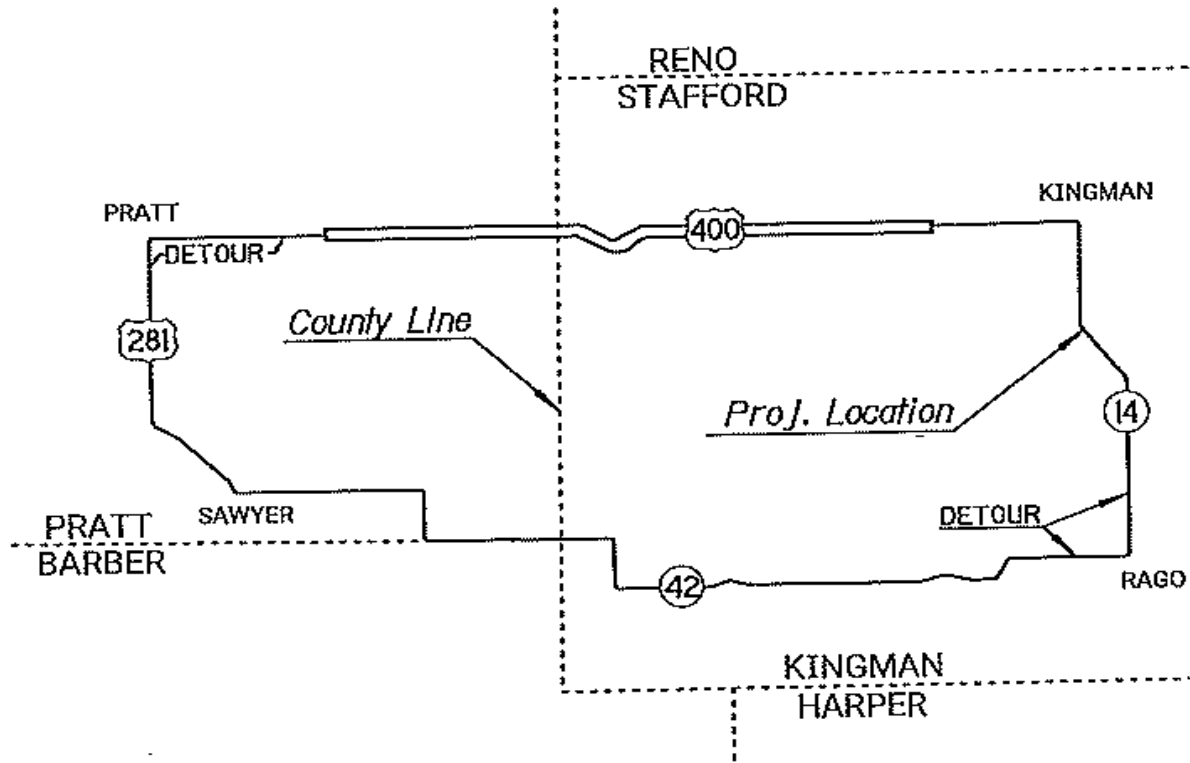

The work will close K-14 from K-42 on the south to U.S. 54/400 on the north. The detour will be on K-42, from the K-14 junction west to U.S. 281, then north on U.S. 281 to U.S. 54/400, then east to K-14 in Kingman. The entire detour will take about 88 minutes.

Although K-14 will be closed to general traffic, it will be open -- to local traffic only -- on the north from the intersection of U.S. 54/400 and K-14 to Southeast 40th Street and on the south from the intersection of K-42 and K-14 to Southeast 70th Avenue.

The Kansas Department of Transportation is overseeing the project.

King Construction Co. Inc., of Hesston, is the primary contractor for the \$1,393,896 project.

Please see map below.
