### **Surveys to begin for shoulder widening on K-42 in Sedgwick, Sumner counties**

Surveys for shoulder widening on K-42 in Sedgwick and Sumner counties are scheduled to begin around Monday, Aug. 24.

The proposed widening is on K-42 in Sumner County from about 0.2 mile east of the K-2/K-42 junction to the Sumner/Sedgwick county line. The proposed widening continues from the Sumner/Sedgwick County line about 9 miles northeast to south of West 71st Street at Clonmel.

The approximate length of the surveys is 15.4 miles. The surveys will be based on the current alignment.

The surveys, for the Kansas Department of Transportation, are estimated to be completed by Dec. 31.

A member of the survey crew will contact property owners and/or tenants for permission to enter private property. Survey activities will include use of survey instruments on the ground to determine locations of existing features within the survey corridor.

**The approximate project location is marked in red on the map below.**
